Communication of 9th March 2011

Update of ICS phase 1

Removal of controls on ETA.

New container code in messages ENS, RENS and DIV.

A.I.S. – I.C.S. has been update to permit the indication of estimated date of arrival (EDA) in the past, compared to the presentation/registration date of the ENS-RENS-DIV.

The system also permits to declare container code starting with “SOWN” or “XXXX”.
